Summary

Computer Science student with professional experience in frontend and full-stack web development using React.js, Next.js, JavaScript, and TypeScript. Experienced in building responsive web applications, integrating REST APIs, developing reusable components, implementing authentication and role-based access control, and connecting applications with databases. Hands-on experience with Node.js, Express.js, NestJS, MongoDB, MySQL, PostgreSQL, Git, GitHub, and Postman.

Technical Skills

Languages: JavaScript, TypeScript, HTML5, CSS3, SQL
Frontend: React.js, Next.js, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, NestJS, REST APIs, Authentication, RBAC
Databases: MongoDB, MySQL, PostgreSQL
Tools: Git, GitHub, Postman, VS Code, Vercel, Render

Professional Experience

Full Stack Developer — VertexAI Tec, Lahore

Remote| 09/2025 – 09/2026

- Crafted3+ web applications using React.js, JavaScript, HTML5, and CSS3 for responsive desktop and mobile interfaces.
- Built 10+ reusable React components and UI modules, improving consistency and simplifying frontend maintenance.
- Integrated RESTful APIs for data retrieval, form submission, and application workflows.
- Connected frontend interfaces with backend services and databases to support end-to-end application functionality.

Front-End Developer Intern — Crexed ,Bahawalpur

Remote|05/2025 – 08/2025

- Contributed to 3+ web projects using React.js, JavaScript, HTML5, and CSS3.
- Established component-based architecture and navigation logic to improve frontend maintainability.
- Integrated RESTful APIs and responsive layouts to support data-driven application features across multiple screen sizes.
- Collaborated with development teams using Git, GitHub, and Agile workflows for feature delivery.

Projects

TicketGo — Ticket Management Platform

Next.js | TypeScript| Node.js | NestJS | PostgreSQL

- Architected a full-stack ticket management platform supporting 3 user roles and 6 ticket statuses for creating, assigning, tracking, and resolving support requests.
- Engineered 4 core backend capabilities—authentication, RBAC, RESTful APIs, and database-driven workflows—for controlled ticket operations.
- Configured 3 role -specific interfaces for administrators, agents, and employees with dedicated permissions and workflows.

Kya Khao — Food Ordering Web Application

React.js | JavaScript| HTML5 | CSS3 | TailwindCSS

- Built a React -based food ordering application with 4 core functions: menu browsing, category filtering, item details, and order placement.
- Built modular React components and streamlined navigation for responsive desktop and mobile interfaces.

Worldcon Tech Services — Company Website

HTML5 | CSS3 | JavaScript

- Created a responsive company website using HTML5, CSS3, and JavaScript with structured content and navigation.
- Designed interactive features and responsive layouts for desktop, tablet, and mobile devices.

Spin Wheel — Interactive Web Application

React.js | JavaScript| HTML5 | CSS3

- Developed an interactive spin wheel using React state management, event handling, and user controls.
- Implemented responsive frontend behavior for consistent interaction across desktop and mobile screens

Education

Bachelor of Science in Computer Science (BSCS) *2024 – Present*

University of Central Punjab (UCP)

Intermediate in Computer Science *2022 – 2024*

Punjab Group of Colleges

Certification

Microsoft Office Specialist: Word — Microsoft / Certiport

Date of Achievement: 4/2024 · wUQ53-H9mX
